OXMARRY

VIDEO CREATOR CONTEST

OXMARRY VIDEO CREATOR BOUNTY · 2026 · YOUTUBE & SHORTS

CREATOR KIT

Everything you need to make an OxMarry video for YouTube or YouTube Shorts: the rules on one page, copy-paste text, three ready scripts and all the official website artwork.

POOL	WINNERS	VIDEOS EACH	CAMPAIGN
10,000 OC	100	Up to 3	1 Oct–1 Nov

BOUNTY PAGE https://oxmarry.oxchange.io/bounty · registration, submission, leaderboard and thread all start here

START HERE

01 WHAT OXMARRY IS

In plain words: **OxMarry is an automated ETH vault on Polygon. You deposit USDT, and a bot trades ETH for you.**

That one sentence is the best way to open any video. Everything else is detail you can show on the website and the dashboard.

HOW IT WORKS

- You connect a wallet and deposit USDT into the vault.
- The bot buys ETH on dips and only closes a trade in profit.
- While it waits for that, it holds the position.

THE DESIGN

- **Spot only**: it buys and sells real ETH.
- **No leverage**.
- **Non-custodial**: linked to your own wallet.
- **Withdraw any time** on the Flexible plan.

LINKS YOU WILL NEED

WHAT	WHERE
Website Put this in every video description	`https://oxmarry.oxchange.io/`
Bounty page Links to the registration page (1–7 Oct), the video submission page (1 Oct – 1 Nov), the live leaderboard and the BitcoinTalk thread	`https://oxmarry.oxchange.io/bounty`
Telegram · X	`t.me/Oxchange_Announcement_Official · x.com/oxchangefinance`

Can't find the thread? Search "OxMarry Video Bounty" on BitcoinTalk. All cut-offs are 23:59 UTC.

WHAT IS IN THIS KIT

This guide
Rules, steps, scripts, ideas, FAQ

copy-paste-text.txt
Titles, descriptions, scripts

assets/ · templates
Thumbnail, lower third, end card, b-roll

assets/ · website art
Hero loop, scenes, 4 bot poses, logos, icons

02 THE BOUNTY ON ONE PAGE

Post up to **3 videos** about OxMarry on **YouTube or YouTube Shorts**. Each video is scored on its likes, comments and views. **The 100 highest total scores share 10,000 OC.**

1st 1 winner	5,000 OC pool	5,000 OC
2nd - 50th 49 winners	3,000 OC pool	61.22 OC each
51st - 100th 50 winners	2,000 OC pool	40 OC each

Every place pays a fixed amount. Places nobody reaches are not paid out.

HOW A VIDEO IS SCORED

Score = Likes + (Comments × 3) + (Views ÷ 20, rounded down)

Your accepted videos (max 3) are added together. You need a **total of 50 or more** to be ranked. Ties go to whoever had their first video accepted earlier. Views, likes and comments are read **automatically from YouTube every hour**; numbers you report yourself are not used. The final snapshot decides.

WORKED EXAMPLE: TWO VIDEOS

	LIKES	COMM. ×3	VIEWS ÷ 20	SCORE
YouTube review 120 likes · 18 comments · 3,460 views	120	54	173	**347**
YouTube Short 64 likes · 9 comments · 1,210 views	64	27	60	**151**
Total score				**498**

JUST BELOW THE LINE

One video with **18 likes**, **3 comments** and **390 views**:

`18 + (3 × 3) + (390 ÷ 20 = 19.5 → 19) = 46`

46 is under 50, so it is not ranked yet. Two more comments (+6) would take it to 52.

Comments count three times. A good question in your video is worth a lot.

DATES (2026, CUT-OFFS 23:59 UTC)

Thu 24 Sep
Thread posted. Rules out, start planning.

Thu 1 Oct
00:00 UTC: registration and submissions open, live leaderboard starts. Videos must be published from now on.

Wed 7 Oct
Registration closes.

Mondays
Weekly snapshot: 5 · 12 · 19 · 26 Oct, 2 Nov. The leaderboard's change arrows compare with it.

Sun 1 Nov
Video submissions close.

Sun 8 Nov
Final count (snapshot).

Sat 14 Nov
Provisional results. Tue 17 Nov: 72 h objection window closes, results final.

By Sat 28 Nov
Rewards paid.

FROM IDEA TO LEADERBOARD

03 STEP BY STEP

Registration and submission happen on web pages linked from `oxmarry.oxchange.io/bounty`. A BitcoinTalk account is not needed — if you do have one and register with it, the pages also hand you the two short thread posts, already filled in.

1 READ THE RULES

FROM 24 SEP

Open `oxmarry.oxchange.io/bounty` or find the BitcoinTalk thread from there (or search "OxMarry Video Bounty" on BitcoinTalk). Plan your videos. Nothing to submit yet.

2 REGISTER ON THE REGISTRATION PAGE

1-7 OCT ONLY

Linked from `oxmarry.oxchange.io/bounty`. You give your **YouTube channel**, your **OC wallet** and an **email or Telegram**, once. A BitcoinTalk username is optional. Only videos from the channel you register can be accepted.

3 MAKE AND PUBLISH YOUR VIDEO

1 OCT - 1 NOV

Use a script from this kit or your own idea. Tick all 5 must-haves (next page) and YouTube's paid-promotion box. Publish on your registered channel on or after Thu 1 Oct.

4 SUBMIT THE LINK

BY SUN 1 NOV

Paste the YouTube link into the submission page (linked from `oxmarry.oxchange.io/bounty`) — up to **3 links at once**. It checks the video on the spot and tells you what to fix. Registered with a BitcoinTalk username? Also post the **Video Submission Post** it gives you in the thread.

5 WATCH THE LIVE LEADERBOARD

LIVE, HOURLY

It starts on 1 Oct and updates itself every hour, on `oxmarry.oxchange.io/bounty` and on the leaderboard page. Keep sharing your video and replying to comments.

AFTER SUBMISSIONS CLOSE

SUN 8 NOV
Final count. The last snapshot of views, likes and comments.

SAT 14 NOV
Provisional results are posted.

TUE 17 NOV
72 h objection window closes. Results are final.

BY SAT 28 NOV
Rewards paid in OC.

NO BITCOINTALK ACCOUNT?
You can do all five steps from `oxmarry.oxchange.io/bounty` alone: register, submit your links and watch the leaderboard. Nothing in the bounty needs a forum account.

JOINED FROM BITCOINTALK?
Add your username when you register. The pages then give you the two thread posts — the **Authentication Post** once, and a **Video Submission Post** for each video.

TOP-50? KEEP YOUR YOUTUBE ANALYTICS READY

Every top-50 creator is asked for a YouTube Analytics screenshot. You must send it **within 48 hours** of being asked, or the whole entry is disqualified. Keep every video **public until rewards are paid**.

BEFORE YOU HIT PUBLISH

04 THE 5 MUST-HAVES

Every video must have all five. The tracker checks the first four **automatically through the YouTube API** as soon as you submit, so a small slip means the video is not accepted.

1 **"OXMARRY" IN THE TITLE**
For a normal video and for a Short.
AUTO-CHECKED

2 **THE LINK AND THE HASHTAGS IN THE DESCRIPTION**
`https://oxmarry.oxchange.io/` and `#OxMarry #OxChange #OC`, all three.
AUTO-CHECKED

3 **PUBLISHED FROM 1 OCT, ON YOUR REGISTERED CHANNEL**
On or after **Thu 1 Oct 2026**, on the YouTube channel you gave at registration.
AUTO-CHECKED

3 **LONG ENOUGH**
At least **60 seconds** for a YouTube video, or **30 seconds** for a Short.
AUTO-CHECKED

4 **YOUR OWN WORK, PUBLIC UNTIL PAID**
Made by you, no re-uploads or copied videos. Don't delete it or make it private before rewards are paid (by Sat 28 Nov).
TEAM CHECK

HOW THE TRACKER WORKS

ON SUBMISSION
It reads your video from the official YouTube Data API and checks the title, description, channel, publish date and length.

EVERY HOUR
It reads the views, likes and comments and updates the live leaderboard. Self-reported numbers are not used.

AT THE END
The final snapshot on Sun 8 Nov decides the ranking.

ALSO REQUIRED

- Content is about OxMarry: **the website and the dashboard**.
- **Any language** is fine.
- Official OxMarry artwork (everything in this kit) may be used.
- No re-uploads or copied videos.

TICK "PAID PROMOTION"
YouTube Studio > Details > Paid promotion > tick "My video contains paid promotion".

YouTube then shows a small "Includes paid promotion" label on your video.

60-SECOND PRE-PUBLISH CHECK

- ☐ "OxMarry" is in the title
- ☐ Uploaded to my registered channel
- ☐ Paid-promotion box ticked
- ☐ Email and wallet address blurred
- ☐ Link + #OxMarry #OxChange #OC in the description
- ☐ At least 60 s (video) or 30 s (Short)
- ☐ Set to Public, not Unlisted or Private
- ☐ Submitted on the submission page

COPY · PASTE · ADAPT

05 COPY-PASTE TEXT

All of this is also in **copy-paste-text.txt**. Replace the [brackets] with your own words. Keep the link and the three hashtags exactly as they are.

YOUTUBE VIDEO TITLES

```
OxMarry Review: A Bot That Trades ETH for You
What Is OxMarry? The Automated ETH Vault on Polygon, Explained
OxMarry Dashboard Walkthrough: Sign In to Deposit Panel
OxMarry in 60 Seconds: How the ETH Trading Bot Works
OxMarry: Spot Only, No Leverage, Non-Custodial. How Does It Work?
I Went Through the Whole OxMarry Website: Full Tour
[Your language] OxMarry: [your angle in a few words]
```

YOUTUBE SHORTS TITLES

```

READY TO RECORD

06 SCRIPT A · YOUTUBE SHORT, 30-45 S

About 90 words, roughly 40 seconds. **30 seconds is the minimum** for a Short, so don't cut it shorter. Keep the lower third on screen.

TIME	ON SCREEN	SAY
0-3 s	Vertical bot loop, or you to camera. Text: A BOT THAT TRADES ETH FOR YOU?	"I found a bot that trades ETH for you. Here's how it works."
3-10 s	Screen recording: oxmarry.oxchange.io landing page, slow scroll.	"This is OxMarry, an automated ETH vault on Polygon. You deposit USDT, and a bot trades ETH with it."
10-18 s	Scroll to the Spot only · No leverage · Non-custodial · Withdraw any time strip.	"Spot only, no leverage, non-custodial, and on the Flexible plan you can withdraw any time."
18-28 s	Dashboard: the "Where your money sits" card.	"The bot buys dips and only closes a trade in profit. While it waits, it holds the position."
28-36 s	Back to you, or the bot loop. Text: YES OR NO?	"So: would you let a bot trade for you? Yes or no in the comments."
36-42 s	End card + lower third.	"It's oxmarry.oxchange.io. The link is in the description."

Format: vertical 1080×1920, with **broll-bot-loop-vertical.mp4** behind your hook text. **Text:** the Shorts title and description on page 6. Swap the hook, add your face, use your language.

SCRIPT B · YOUTUBE VIDEO, 60-90 S

About 170 words, roughly 80 seconds. **60 seconds is the minimum** for a normal YouTube video. Horizontal 1920×1080.

TIME	ON SCREEN	SAY
0-5 s	You to camera, or bot loop. Text: SPOT ONLY. NO LEVERAGE.	"A trading bot that's spot only, with no leverage. Let's look at OxMarry."
5-15 s	Landing page, top of the page.	"OxMarry is an automated ETH vault on Polygon. You deposit USDT, and a bot trades ETH for you."
15-30 s	Scroll to the How it works steps.	"Three steps: deposit USDT, the bot trades ETH around the clock, and when a trade closes, the gain is set aside for you to claim."
30-45 s	The Spot only · No leverage · Non-custodial · Withdraw any time strip.	"It's spot only, no leverage and non-custodial. On the Flexible plan you can withdraw any time."
45-58 s	Dashboard: "Where your money sits" (Idle USDT · In-cycle ETH · Banked profit).	"The bot buys dips and only closes a trade in profit. While it waits, it holds the ETH. This card shows where your money is at any moment."
58-68 s	"What the bot does" section of the landing page.	"It analyses the market, picks its entry, and executes on Polygon, where gas costs are tiny."
68-80 s	Sign-in page, then the dashboard.	"Sign-in is just your wallet: no password, a free signature. The dashboard shows the vault, the bot's status and your position."
80-90 s	End card + lower third.	"Would you trust a bot with your trades? Tell me why in the comments. It's oxmarry.oxchange.io, link below."

READY TO RECORD

07 SCRIPT C · REVIEW, 5-8 MIN

A full **YouTube** review built around a screen recording of the website: **landing page → sign in → dashboard → deposit panel**. The timings add up to about 7½ minutes; stretch or trim each part.

AT	CHAPTER	WHAT TO SHOW AND SAY
0:00	**Cold open**	Bot loop or you to camera. One hook: "A trading bot with no leverage. I went through the whole site so you don't have to." Show the site for a second.
0:20	**Intro**	Who you are. Say plainly: "This video is part of the OxMarry creator bounty." (You also tick YouTube's paid-promotion box.) Lower third on.
0:40	**What OxMarry is**	In your words: automated ETH vault on Polygon; deposit USDT, a bot trades ETH. Spot only, no leverage, non-custodial, withdraw any time on the Flexible plan.
1:40	**Walkthrough 1: landing page**	Record oxmarry.oxchange.io top to bottom: the headline, the four-point strip, **How it works** (three steps), **What the bot does**, and the footer links. Say what each part means in your own words.
3:10	**Walkthrough 2: sign in**	Click **Sign in**. No password: you connect your wallet and sign a free message (no transaction, no gas). New users see **Create an account**: email code, link wallet, sign the agreement. **Blur your email and wallet address.**
4:10	**Walkthrough 3: dashboard**	Vault stats (total in the vault, ETH price, bot status), **Your bot**, **Where your money sits** (idle USDT, in-cycle ETH, banked profit), the live ETH chart and your position. Explain what each card means.
5:40	**Walkthrough 4: deposit panel**	Show the panel and read what's on it: the plans (Flexible, and plans with a lock period), the fees and the minimum exactly as shown, and the agreement you sign first. If the panel says deposits open soon, say so. You don't need to make a deposit for this video.
6:40	**How the bot trades**	Go back to the dashboard. Explain the cycle: the bot buys ETH on a dip, holds the position while it waits, and only closes the trade in profit; the gain moves to banked profit, which you can claim.
7:25	**Your take and close**	Your own opinion: what you like, what you would ask the team. One question for the comments (page 9). Point to the link in the description. End card.

RECORDING SETUP

1920×1080 browser window, zoom 110–125% so text is readable. Hide bookmarks and other tabs. Record your voice separately if the room is noisy.

PRIVACY

Blur your email, wallet address and balances. A fresh wallet with no funds is enough to show sign-in.

USE THE KIT

Bot loop for the cold open, lower third all the way through, end card for the last 10–20 s, thumbnail template for the cover.

CHAPTERS IN THE DESCRIPTION

Paste the timestamps above into your description (the template on page 6 has a Chapters block). YouTube turns them into chapters, and viewers can jump straight to the dashboard.

REACH

08 HOOKS AND IDEAS

Your score comes from **likes, comments (×3) and views**. Curiosity and real questions drive all three.

OPENING HOOKS (FIRST 3 SECONDS)

- "Would you let a bot trade your crypto?"
- "This bot only closes trades in profit. Here's how."
- "A trading bot with no leverage. Let's look."
- "I went through the whole OxMarry website so you don't have to."
- "No password: signing in to OxMarry in 60 seconds."
- "3 things I noticed on the OxMarry dashboard."

QUESTIONS THAT GET COMMENTS

- "Bot or manual trading: which do you trust more, and why?"
- "What would you ask the OxMarry team? I'll pass on the best ones."
- "Rate this dashboard design out of 10."
- "What's the first thing you check on a crypto site?"
- "Should I do a part 2 on the dashboard?"

VIDEO IDEAS

The full review
Script C. The whole site and dashboard, in your own words.

"How does it work?"
Answer one question well: what happens between a deposit and a closed trade.

Explain like I'm 5
Draw the flow: USDT in, bot buys ETH on a dip, closes in profit, gain set aside.

Dashboard tour
Just the dashboard, card by card. Short and useful.

In your language
Many viewers never see an explainer in their own language. Any language is accepted.

A 3-part series
Site → sign in → dashboard. Your three videos, each pointing to the next.

Short + long
A 40-second Short that sends viewers to your full review.

Reaction / first look
Open the site for the first time on camera and react to it.

Your questions answered
Collect comments from video 1 and answer them in video 2.

WAYS TO GROW A VIDEO

ALLOWED

- ✓ Share it in your own communities, groups and stories.
- ✓ Pin a comment with a question, and reply to comments.
- ✓ Post when your audience is online; keep the first 3 seconds strong.
- ✓ Make a Short that points to your full video.

DISQUALIFIES THE WHOLE ENTRY

- ✗ Paid ads or boosts for the video.
- ✗ Bought views, likes, comments or subscribers; bots.
- ✗ Engagement groups, "sub for sub", like-for-like.
- ✗ Deleting the video or making it private before payout.

STAY IN THE GAME

09 DO'S, DON'TS AND REJECTIONS

DO

- ✓ Show the real website and dashboard.
- ✓ Use your own voice, face, edit and language.
- ✓ Upload to the YouTube channel you registered.
- ✓ Tick YouTube's paid-promotion box.
- ✓ Blur your email, wallet address and balances.
- ✓ Keep the video public until rewards are paid.
- ✓ Send a YouTube Analytics screenshot within 48 h if asked.

DON'T

- × Re-upload someone else's video, or copy one.
- × Pretend to be an official OxMarry or OxChange channel.
- × Publish before Thu 1 Oct, or from another channel.
- × Edit the title or description later and drop the must-haves.
- × Buy engagement, join engagement groups or pay for ads.
- × Delete the video or make it private before payout.

WHY A VIDEO GETS REJECTED

The thread lists the official reason codes (R1–R9). In plain words, the common ones are:

REASON	HOW TO AVOID IT
Channel not registered	Register on the registration page between 1 and 7 Oct and upload from that channel.
"OxMarry" missing from the title	Use a title from page 6.
Link or hashtags missing from the description	Paste the description template unchanged at the bottom.
Published before Thu 1 Oct 2026	Publish from 1 Oct, 00:00 UTC. Plan and edit before then, publish after.
Too short	At least 60 s for a video, 30 s for a Short.
Not your own work, or not about OxMarry	Make it yourself, about the website and dashboard. Official artwork is fine.
Bought or fake engagement	Grow it the allowed way (page 9).
Made private or deleted	Keep it public until rewards are paid (by Sat 28 Nov).

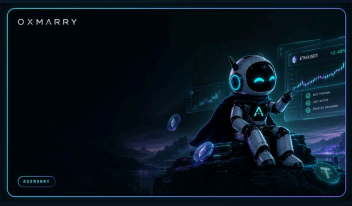

DISQUALIFICATION: THE WHOLE ENTRY, NOT JUST ONE VIDEO

- Bought views, likes, comments or subscribers; bot engagement; engagement groups; "sub for sub".
- Paying for ads to boost the video.
- Deleting a video or making it private before rewards are paid.
- Not sending a YouTube Analytics screenshot within 48 h when asked (every top-50 creator is asked).

logo-wordmark-white.png 16 KB
All-white wordmark.

app-icon-512.png 74 KB
512×512 app icon.

app-icon-192.png 18 KB
192×192 app icon.

11 ASSET TIPS AND FAQ

Thumbnail. Open the template in any editor, put your title on the empty left in big, bold letters (Michroma or Sora). Keep the bottom-right corner clear: YouTube shows the video length there.

Lower third. Put it on the top track of your editor at full size, for the whole video or whenever you show the site. For a Short, crop the bar and place it above YouTube's buttons.

End card. Last 10–20 s of a video. YouTube end-screen elements can sit over the right side.

B-roll and hero loop. They loop seamlessly: place copies back to back for longer shots. The vertical clip has dark space above and below for your hook text.

Bot poses. Transparent PNGs. Put them on your own backgrounds, in thumbnails or next to your face cam.

Logos and icons. Use the white versions on photos or busy backgrounds; keep the original colours elsewhere. Don't stretch, recolour or redraw the logo.

Brand. Fonts (free on Google Fonts): **Michroma** for titles, **Sora** for text, **JetBrains Mono** for labels. Colours: `#02090E` background · `#2DE0F0` cyan · `#8B5CF6` violet · `#E9F4F8` text.

FAQ

Which platforms count?
YouTube and YouTube Shorts only. Their counts are read automatically through the YouTube API.

How many videos can I submit?
Up to 3, any mix of videos and Shorts. Their scores are added together.

Where do I see my score?
On the live leaderboard, from Thu 1 Oct, at `oxmarry.oxchange.io/bounty` and on the leaderboard page.

What if two creators have the same score?
The one whose first video was accepted earlier ranks higher.

What do I register with?
Your YouTube channel, your OC wallet and an email or Telegram, on the registration page (1–7 Oct). A BitcoinTalk account is optional.

Can I use the OxMarry artwork?
Yes, everything in this kit. Re-uploads and copied videos are not allowed.

When am I paid?
In OC, by Sat 28 Nov, after the objection window closes on Tue 17 Nov.

Can I speak my own language?
Yes, any language. Keep the link, the hashtags and "OxMarry" as written.

When are views counted?
Every hour, straight from YouTube. The final snapshot on Sun 8 Nov decides. Numbers you report yourself are not used.

I scored 46. Do I get anything?
You need a total of 50 or more to be ranked. Add a video, or get more comments.

Do I have to deposit to make a video?
No. You can show the whole site, sign-in and the deposit panel without depositing.

I missed registration. Can I still join?
No. Only registered channels can submit videos.

Can I run ads to boost my video?
No. Paid ads disqualify the whole entry.

Where do I ask questions?
In the BitcoinTalk thread (linked from `oxmarry.oxchange.io/bounty`) or on Telegram: `t.me/Oxchange_Announcement_Official`
